SUMMARY

Product designer with 4+ years designing digital products, data interfaces, and operational tools inside a global enterprise. I care about the details that make a complex interface feel effortless — the hierarchy, the interaction, the moment where data stops being noise and starts being useful. Strong visual foundation, comfortable with technically constrained problems, and genuinely curious about AI. Toronto-based, open to remote.

EXPERIENCE

Designer — Customer Experience Organisation

ExxonMobil Technology & Services · Oct 2022 – Jul 2024 · Bangalore, India

- Designed UI/UX interfaces, workflow tools, and data dashboards for global teams — including a field operations platform for Papua New Guinea and the ServiceNow migration, across complex multi-step user journeys.
- Designed reporting dashboards translating SLA compliance, ticket volumes, and KPI data into clear visual interfaces — balancing information density with readability for leadership stakeholders.
- Designed interaction model and UI for an internal service desk chatbot — multi-state flows, error conditions, and edge cases for users who needed it fast and reliable under pressure.
- Reduced form submission errors by 30% by rethinking visual hierarchy and flow. Excellence Award 2022 · Employee Recognition 2023 & 2024.

Scrum Master

ExxonMobil Technology & Services · Aug 2023 – Jul 2024

- Kept design quality embedded at every stage of delivery across product and engineering teams. SAFe 6 & CSM certified.

Reporting & Data Visualisation Analyst

ExxonMobil Technology & Services · Aug 2020 – Sep 2022

- Built Tableau and Power BI dashboards translating complex operational data into executive-ready visual narratives — cut inefficiencies by 20%. Community CSR Award 2021 & 2022.
